

A three day workshop on Photo and Video Editing using Canva software was organized from 21st May to 24th May 2024 at the college computer lab by the Skill Development cell along with the Computer Science Department for the benefit of the students. Almost 35-40 students took part from 2nd and 4th semester of all the three streams. A group of highly appreciated faculties conducted the workshop and made the students aware of the benefits of the workshop and made them learn new things about photo and video editing using Canva. They were also given information on how they can take up this as a earning source and can start it with limited source. The students were given certificate at the completion of the workshop which would help them to get themselves engaged in similar jobs in future. In this way the cell was able to complete the workshop successfully.
